POMPEIAN FETE.

Production of "The Last Days of Pompeii" on the Island.

WAS A MAGNIFICENT SUCCESS.

The Glories of the Ill-Fated City of Rome Pictured with all the Realism that the Painter's Brush Can Convey—The Spectacles Received with Enthusiasm—A Large Audience Attended the Opening Performance—To-night is Children's Night.

The production at Schmulbach's park, at the north end of the Island, of the spectacle, "The Last Days of Pompeii," concluding with a magnificent display of Pain's fireworks, opened a four night's engagement last night. The crowd that turned out was a large one, but after last night's complete success there is no doubt but that the crowds of Tuesday, Wednesday and Thursday nights will be far larger.

There was a slight delay at the start on account of a broken circuit in the electric lighting arrangement, but this was soon remedied and the production of the spectacle was proceeded with. The various specialties that are a part of the production were received by the audience with frequent manifestations of pleasure. The acrobatic and bar work were particularly fine, and the flying trapeze performers performed daring feats that almost took away the breath of the spectators. The hippodrome races, too, were exciting and interesting.

But, after all is said in praise of the spectacle itself and the performers, the best part of the performance is yet to be mentioned, and that is the pyrotechnic wind-up. The fire works were indeed fine. They are the Manhattan Beach fireworks that have made the name of Pain famous all over the world. Every night \$1,000 is expended in this feature alone. The set pieces were beautiful beyond compare, and the mid-air pyrotechnics pleased a far larger audience than that which witnessed the other features of the show, for half of the city population were onlookers.

To-night is Children's night at the "Last Days of Pompeii." A feature of the fireworks will be the outlining of an elephant on truly elephantine proportions, something that will greatly please the little ones. To-night and Wednesday and Thursday nights pyrotechnic pictures of McKinley and Bryan will be shown. The political "rooters" will be given an opportunity to "root."

LINSLEY INSTITUTE OPENING

Next Monday—Prospects for the Coming Year Brighter Than Ever.

There is no school of its character and scope in the state or surrounding country that enjoys a higher reputation for the thorough education of the youth, than the Linsley Institute. To attain the fame which it enjoys has taken years of hard work and patient endeavor on the part of Principal John M. Birch and his assistants, who have put their enthusiasm in the cause of education into their every word and deed. The results accomplished by the Linsley in this city and adjacent communities cannot be estimated by common standards, for it has been far reaching in its influence in the training of youth, tangible evidences of which can be seen on every hand in the young men now in the active pursuits of life who were graduated from its class rooms.

The fall term opens next Monday, and the prospects are for an increased attendance of students. The building has been thoroughly renovated and made inviting for the student. The Institute has a thoroughly equipped gymnasium, which together with military drill and instruction guarantees that the physical development of the student will not suffer through the training of the mind. Lieutenant Van Duzer has returned from his summer vacation, refreshed and reinvigorated for the year's work before him. For information as to tuition, etc., apply to the principal, Professor John M. Birch, or members of the board of trustees.

ABOUT PEOPLE

Strangers in the City and Wheeling Folks Abroad.

Mr. Robert Nesbitt, of this city, registered at the Herald Bureau in Paris, France, on Saturday last.

Mr. Michael Gaffney, of Sistersville, has accepted a position with the Crystal glass works of Bridgeport, O.

Louis Johnson, of the Intelligencer, stereotyping department, wears a smile these days. Yesterday morning he went home and found a new arrival—a nine pound boy.

There was quite a stir in city building circles yesterday caused by the absence of City Clerk Charley Dannenberg. Though nobody was unkind enough to say that he had skipped, yet there was much conjecture until it was learned that there had been a new arrival in the Dannenberg home yesterday morning. And it is a fourteen pounder.

A Fine Recital.

Yesterday, in the Convent hall, on Eoff and Fourteenth streets, Mr. Charles Koehler, of Cincinnati, gave the Sisters a complimentary recital, which they warmly appreciated and heartily applauded. A scholar of Shakespeare who can portray the character of that great master in such perfection, is rarely met, except with a cast of the highest order. Mr. Koehler as Shylock, reproduces with wonderful effect the master-stroke of art, that trial scene, when crushed and defeated Shylock leaves the stage. He is the finished actor in Captain Wadsworth's speech to Cromwell. In striking contrast with these impersonations, Mr. Koehler appears as humorist, showing himself a comedian as well as a tragedian. His merit as an actor placed him in roles with Booth, Barrett and Medford.

The Ladies.
